PROFESSIONAL SUMMARY

Innovative and detail-oriented Third-Year Computer Engineering student with a 9.166 CGPA, specializing in Full-Stack Web Development. Demonstrates advanced proficiency in the MERN stack and competent problem-solving in Java and C++. Seeking a Software Engineering internship to leverage expertise in scalable backend architectures, dynamic frontends, and REST APIs to engineer high-performance, real-world web applications.

TECHNICAL SKILLS

Languages: JavaScript (Advanced), C++ (Proficient), Java (Proficient), SQL (Intermediate)

Core Concepts: Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP), DBMS, Computer Networks

Web Technologies: React.js, Node.js, Express.js (Advanced), HTML5, CSS3, REST APIs, MERN Stack

Tools & Databases: MongoDB (Advanced), MySQL (Proficient), Git, GitHub, VS Code, Postman

WORK EXPERIENCE

BlissQuants Datalytics LLP

Pune, India (Remote)

Software Engineer Trainee Intern | [BlissFlow Repo](#)

Sept. 2025 – March 2026

- Implemented a secure **JWT-based authentication** system for a live fintech trading application to ensure safe and restricted user access.
- Integrated backend login APIs and managed token storage, validation, and protected routes to maintain secure session management across the application.
- Tested and debugged authentication workflows prior to production deployment to ensure application stability and security.
- Collaborated closely with the backend development team to strengthen the application's overall security architecture.

PROJECTS

Smart Social Impact Reporting System | [GitHub](#) | *React.js, Node.js, Express.js, MongoDB, Gemini AI*

- Developed a full-stack MERN application to track community impact, mapping project data to UN Sustainable Development Goals using interactive Chart.js dashboards.
- Built a secure Node.js and Express backend featuring RESTful APIs, utilizing MongoDB for data storage and JWT for robust user authentication.
- Integrated the Google Gemini AI API to automate report generation, formatting user-submitted project data into structured impact reports.

EmPay HRMS | [Live Site](#) | *React.js, Node.js, Express.js, MongoDB*

- Developed a full-stack MERN application to streamline core Human Resource operations, specifically managing employee attendance, leave requests, and payroll.
- Built a responsive frontend with React.js and implemented role-based access control (RBAC) to provide distinct dashboard views for administrators and employees.

Compete Hub | [GitHub](#) | *HTML, CSS, JavaScript, Node.js, MongoDB*

- Built a centralized web application that provides students with a single platform to discover and register for upcoming college competitions.
- Designed and implemented RESTful APIs using Node.js and Express to handle user registrations and manage competition data dynamically in MongoDB.

EDUCATION

JSPM's Bhivarabai Sawant Institute of Technology and Research

Pune, India

B.E. in Computer Engineering (CGPA: 9.166/10.0)

Aug. 2023 – May 2027

- Relevant Coursework:** Data Structures & Algorithms, DBMS, Operating Systems, Computer Networks, Software Engineering.

Shri Bhairavnath Higher Secondary College

Pune, India

Higher Secondary Certificate (Percentage: 71.83%)

Jun. 2021 – Mar. 2023

Shri Bhairavnath Secondary and Higher Secondary School

Pune, India

Secondary School Certificate (Percentage: 94.20%)

Jun. 2020 – Mar. 2021

LEADERSHIP & ACHIEVEMENTS

Certifications: SQL and Relational Databases 101 (IBM Developer Skills Network), Java & DSA (Talentbattle).

Co-Curricular: Completed Add-on course in C++, Full Stack Development program with Talentbattle.

Event Leadership: Served as Lead Anchor for major college events, coordinating schedules and engaging large audiences.

Volunteer Work: Actively contributed as a Training and Placement Volunteer, facilitating recruitment drives and assisting students.
